COMMUNITY PLUMBING CHALLENGE 2016

Diepsloot – Johannesburg, South Africa

The International Community Plumbing Challenge aims to improve public health in regions where communities are threatened by a lack of basic sanitation and safe drinking water systems.

CPC 2016: Diepsloot will enhance sanitation provision in a township community setting with a specific focus on design, installation and maintenance of upgraded communal toilet and wash facilities.

Marking the new United Nations World Youth Skills Day (Fri 15 July, 2016) the event will showcase world-class student teams from South Africa, Australia, India, and the United States of America specializing in Plumbing, Metalwork, Engineering and Architecture skillsets.
